USER'S MANUAL

# SJCAM

SJCAM ZONE is a supplementary app that goes beyond remote control for your SJCAM action camera.

It is an integrated approach to camera settings, over-the-air firmware updates, image editing, social media and community sharing, among many other things.

## Get the app

Download & Install the SJCAM Zone app.  
Turn on the camera's WiFi.  
Connect your mobile to the camera's WiFi.  
Default password is 12345678

Locate your app icon on your phone.  
Open the SJCAM Zone app.  
Select the Camera icon and press the blue button

## First screen

Connect camera to app.

Open the gallery.

Go to SJCAM Zone community

Tap to start controlling your camera's functions.

Over-The-Air firmware update just by having your SJCAM connected to the app.

Picture-based demonstrations of how to connect your camera to the SJCAM Zone app.

Shown here are the step-by-step procedures on how to pair your SJCAM with the app.

Choose your camera model from the top.

## SJCAM COMMUNITY

View photos and videos from people using SJCAM all over the world. Share experiences with them, tag, comment, make new friends, join others. Show your own content so that others may see and interact with. You control what can be shared,
